If one glass of wine is good for you...
Just imagine what a whole bottle could do!

BUBBLES BY THE GLASS

Envious of the rich wines from their fellow countrymen in Burgundy, the Champenois of the north were trying their very best to produce wine of the same acclaimed quality. However, the bad weather made it hard and fermentation made all their wines sparkling. The poor Benedictine monk Dom Pérignon spent his days trying to get rid of these bad bubbles. Fortunately for us he did not succeed. Cheers!

VODKA

The story is disputed;
however,
the first time it was mentioned
in writing was in Poland,
which mother Russia does not agree on,
obviously!

Fascinated by the French Eau de Vie,
the Czars of Siberia ordered to distill their own
“little water”

In 1600's Barbados, Rum was described as "Rumbullion, alias Kill-Divil, which is made of sugar canes distilled, a hot, hellish, and terrible liquor".

Terrible not at all, is what we think and certainly also not the Royal British Navy, which replaced their good old English ale with this Rumbullion. Let us be Pirates once more and taste this hellish liquid.

WHISKY

This versatile liquid has more stories
than a book can tell.

It is said to be invented by the Irish,
brought to the English and
perfected by the Scottish.

The American friend likes to add an E to the
word and some corn or rye to their Whiskey.

The only thing we know is
that it should be drunk by everyone.

Cheerio to this!

COGNAC

This luxurious spirit of the bourgeoisie can only be produced in the village of Cognac in the Department of Charante or Charente-Maritime in, of course, France.

A great tradition and heritage embodied by this grape distillate delivers a certain kind of seriousness.

Hence, please enjoy it responsibly and do not spill a drop!
